

Warren Wealth Weekly Wisdom

ELECTIONS

With November elections upon us and the 2020 presidential election only a year away, we thought it might be helpful to dig deeper into how the stock market performed during major election years. We always keep our focus on the long-term, so the major take away from these articles is that, short-term, elections have a significant impact...long-term, not so much. Please find below two articles that cover the topic, and as always please call or email with any questions.
