Ted Talks

As another pandemic week comes to a close, we continue to try and find interesting ways our team is passing the time to share with you. Are you familiar with TED talks? We highly recommend them! TED is a nonprofit devoted to spreading ideas, usually in the form of short, powerful talks (18 minutes or less). The concept began in 1984 as a conference where Technology, Entertainment and Design converged, and today covers almost all topics — from science to business to global issues — in more than 100 languages. Meanwhile, independently run TEDx events help share ideas in communities around the world.

Sound interesting? Click on the links below to listen to both the most popular talks of all time, as well as a few suggestions specifically for these times we are currently in. With more free time on our hands, our group has been soaking them up! What are your favorites? Share them with us!
